Local Man Is Held For Hearing After Fatal Auto Crash

Young Woman Is Fatally Hurt In Headon At Donner Lake

When he is released from the Tahoe Forest Hospital, Frank King, 32, Truckee, will face felony manslaughter charges as a result of a fatal automobile accident along Donner Lake last Wednesday night at 10:40 o'clock.

After conferring with District Attorney Harold Berliner at Nevada City, a complaint was signed by James Stamback, officer of the California Highway Patrol who investigated the crash. The district attorney advised that the serious charge be lodged against King.

Fatally injured in the headon collision was Miss Derrelen Ward, 23, Twin Falls, Idaho, who was a passenger in a car driven by Frederick Clark Bayerle, 26, San Francisco. Officers learned the two were en route to Reno to be married.

The car in which they were riding was struck headon by the King car. King was alone at the time and suffered only minor injuries.

Miss Ward was taken to the Washoe Medical Center in Reno with fatal injuries. King and Bayerle were treated here.

Medicine Stolen From State Display

Parents of the children who broke into the state health department trailer parked back of Veterans Memorial Building are being warned by Area Sanitarian Richard Walker that the antibiotics taken may prove fatal if injected into a person.

Aside from the potent, but stale medicine, it is believed the culprits also took a supply of syringes and needles which had been stored in the trailer.

Walker said entrance was gained through a 14 by 14 inch vent in the roof the trailer, indicating the vandals were not adults. The trailer was used as a display apparatus and had been brought here to be used as an office by the health department during the Olympic Winter Games.

Whie nothing of much value was taken, articles were scattered about and cabinets and drawers ransacked.

One of the bottles of antibiotics had been opened and the wrappings from a syringe was found in the old Rocking Stone Tower nearby.

While it was not definitely known just when the theft occurred, it was since Friday, Walker said.

The sheriff's department was notified and officers were attempting to link the robbery with the looting of Engineer William Green's office last Saturday.

Walker urged parents to destroy the medicine and needles in event they are found in the possession of children.

GUNS STOLEN WHEN TRAILER IS LOOTED

Robert B. Stiltner reported to the sheriff's department that while he was absent thieves entered his trailer house half a mile west of Truckee and stole articles valued at more than $300.

The theft took place Friday night and a hasp was forced off the door to permit entry.

Taken in the robbery were a 30.06 Winchester rifle an army Springfield rifle, binoculars and a .22 Winchester pump gun. Deputy Robert Schooley made the investigation.

FIREMEN REQUEST NO PHONING ON ALARM

The Commissioners of the Truckee Volunteer Fire Department are urgently requesting that people refrain from using the telephones atfer a fire siren has sounded, to locate the site of a blaze. This method will help to meet the situation more quickly and efficiently, N. F. Dolley stated.

The fire information is only to be given out to members of the department in case of emergency.

After three years as a member of the board of directors of the Truckee Public Utility District, George Kaspian has submitted his resignation. A successor is expected to be named at a meeting scheduled for next Tuesday.

Boys Loot Office Of Engineer, Take Valuable Articles

Four boys, ranging in age from 10 to 14, are said by officers to have admitted entering the office of State Engineer William Green and taking a number of valuable pieces of office equipment.

Three of the four, according to Deputy Sheriff Roy Waters, admitted entering the office through a rear window Saturday afternoon. Some of the loot, including a calculating machine, an adding machine and a planometer were discovered in one of the abandoned houses which were removed to make way for the freeway.

The missing items were mostly recovered. Aside from the theft, the boys created quite a mess by scattering things about the office during their illegal visit.

Probation officer Floyd Ponds was scheduled to be here this week to discuss filing charges against the four. Deputy Leo Zander assisted Waters in the investigation.

DeMolay Boys To Sell Yule Trees

The Tahoe Truckee DeMolay Chapter will sell Christmas trees in the Truckee area starting December 5. These trees were purchased from the U. S. Forest Service and consist of trees removed on proposed logging right-of-ways and in dense fir stands that require thinning.

The sales lot will be located at McIver's place near Gateway.

No free use Christmas tree permits will be issued by the Truckee ranger station this year. The free use policy was discontinued by the Tahoe Forest after 1957 when the demand became so great that proper supervision of the cutting areas became impossible.

Trees will be furnished as usual to district churches, schools and hospitals, Roy W. Saarni announced,

Prosser Contract Awarded To Firm In Portland, Ore.

Start Is Scheduled Early Next Year As Firm Gets Contract

The interior department at Washington, D. C. has announced that the R. A. Heintz Construction Company of Portland, Oregon, will be awarded the $2,181,323 contract to build Prosser dam just north of Truckee.

Floyd E. Dominy, reclamation commissioner, said this is the prime contract for the first major unit of the $54,000,000 Washoe Reclamation Project in California and Nevada.

Construction of the dam is to be completed within two and a third years and is expected to start as soon as conditions permit next spring.

The reservoir to be formed will provide 30,000 acre feet of storage and flood control protection along the Truckee river and in the Reno vicinity.

Donwstream on the river and in Reno army engineers are engaged in a $1,200,000 channel improvement program that will provide additional flood control benefits.

The Washoe project is designed to furnish a full water supply to 8,900 acres and a supplemental supply to 43,680 acres. It will also provide drainage for 4,800 acres that will receive irrigation service from the project.

The project will also provide 34,500 kilowatts of hydroelectric generating capacity.

EMERALD BAY ROAD IS GIVEN REPAIRS

Work was completed this week on the removal of loose rocks from the high slopes on State Sign Route 89 around Emerald Bay, Lake Tahoe, between Bay View Rest and Bliss Park.

Traffic is now passing through the area without restrictions. Previously there had been delays.

The work was undertaken to lessen danger from rock fall and snow slides, which has made it impossible for the division of highways to keep this road open during past winters.

Should this winter prove to be as mild a one as last year, every effort will be made to keep the road open as often as possible. The project will also permit as early a spring opening as possible should a severe winter develop.

SUNBEAMS

By WALTER M. BARRETT

If you haven't already subscribed to the Red Cross fund drive, may we suggest that it is not too late. In Truckee and vicinity the Red Cross is rather a quiet service, with little ballyhoo and plenty of service. Many needy families have been given assistance through the Red Cross and time after time the home service chairman has been called upon to render invaluable services. The continuation of this service is dependent entirely upon local support, so may we again suggest that you contribute today. Be assured it is a worthwhile endeavor.

It may be the first part of December, but the forest service has again issued a warning that permits are required for all burning. Recent disastrous fires point out the dryness of the forest areas and the same precautions that prevented the Truckee district from major conflagrations in the woods last summer are required now. Trash burning, even in incinerators is dangerous and everyone is being asked to continue to exercise care in the use of fires of all kinds, inside and out.

Hearing Is Set To Discuss Plan For Martis Creek Dam

$2,500,000 Project Near Truckee Would Aid Flood Control

A proposal to supplement the Washoe Project with still another flood control dam an Martis Creek is being given consideration by the U. S. Army Engineer District of Sacramento.

In order that the current study may cover all phases of the pending survey and in order to describe and discuss the plan of improvement, a public hearing will be held at the main auditorium of the State Building in Reno on December 10 at 1:30 p. m.

The district is giving consideration to a plan of improvement consisting of a single-purpose reservoir for flood control on Martis Creek near Truckee, together with minor supplemental channel work through the City of Reno.

On the basis of current prices, the first cost of the project is estimated at $2,500,000 of which $2,100,000 would be federal and $400,000 would be non-federal. The estimated annual cost of the project is $120,000, of which $74,000 would be federal and $46,000, which includes $30,000 for annual maintenance, operation and replacement, would be non-federal.

It is contended that while the Washoe Project will materially alleviate the flood problem in Reno, studies indicate that substantial flood damages can be expected to occur after completion of the project.

Donner Firemen Prevent Tragedy In Greyhound Fire

12 Passengers Injured As Bus Crashes Into Gas Station

Even though the Donner Lake Volunteer Fire Department is never again called to a fire, it has already more than justified its existence and proved its value beyond any question.

The department Friday night at 8:30 o'clock was called to the Donner Lake Chevron Service Station and quickly extinguished a fire in a Greyhound bus, well filled with passengers which had crashed into the station in an effort to avoid a car.

The fire which flashed up immediately threatened the bus, its passengers and the surrounding area, but through the work of the firemen, only the front of the big vehicle was damaged by fire and all passengers escaped.

Twelve of the passengers suffered injuries when the east bound bus was swerved by Driver Oran Miller of Sacramento to avoid colliding with a car driven by Franklin Cole of Benicia, also east bound and which had attempted a turn to go into the station.

The bus sideswiped the lighter car and crashed into the station demolishing three pumps and starting the fire.

Five of the injured passengers were taken to the Tahoe Forest Hospital for observation and the others were treated and released.

Sergeant Frank Snyder was high in his praise for the work of the department. The fire station is almost adjacent to the station and this enabled the firemen to reach the scene quickly and avert what may have been a major tragedy.

Fire Restrictions Are Still In Effect

With the continued dry weather and hazardous fire conditions, the state fire law burning restrictions requiring written permits which are normally not required after December 1 will still be in effect until further notice.

This includes permits covering all types of burning, slash or incinerators, open sawmill burners or any type of trash or refuse burning on or near any forest, brush or grass covered lands within the jurisdiction of the Tahoe National Forest and the California Division of Forestry.

This is in joint agreement between Robert Burns, California Division of Forestry Ranger and Henry E. Branagh, Tahoe National Forest Supervisor. The state forester will advise when burning permits are no longer required and this will not be until after sufficient rainfall to eliminate the possibility of any forest fire.

PORTION OF PLACER FREEWAY IS OPENED

A five-mile section of new eastbound lanes on U. S. 40 freeway in Placer County has been opened to serve two-way traffic as a temporary detour from Drum Forebay, about 2.5 miles east of Baxter, to 0.6-mile west of Emigrant Gap, according to E. H. Whitnack, resident engineer for the state division of highways.

The section is a portion of the 7.8-mile four-lane freeway project under construction between 0.7-mile east of Baxter to 0.6-mile west of Emigrant Gap.

The old road has been closed for grading operations in preparation for construction of new westbound freeway lanes which will substantially follow the present road alignment.

With the advent of sustained snowfall, construction operations will cease and traffic will be routed back onto the existing route for the winter.

Estimated completion of the entire project is currently September 1960, depending on the severity of winter weather.

RED CROSS DRIVE IS UNDER WAY HERE

George Kaspian, Daven Morey, Mrs. Fred Pedley and other volunteers are concentrating their efforts to make the annual Red Cross fund drive in this district a success, according to Mrs. Pedley.

The drive began November 9 and is continuing to assure added funds for the nation wide and local organization which lends assistance in time of individual need or wholesale disaster conditions.

DONNER DOINGS

By VIRGINIA O'BEAR

Now that the Thanksgiving holiday is over and everyone is tired of turkey, we can settle down and start planning for Christmas. Everywhere you look there are Christmas decorations and beautiful displays of gifts in all of the stores. I do hope we have a white Christmas for many reasons. We are having a lot of our friends and relatives up for Christmas and they like snow. We also need a change in the weather and some moisture in the air as so many people I know have colds and flu. We also need a lot of snow for the coming Olympics so let's all hope we get some snow soon.

* * *

Speaking of Christmas, we received an invitation to the Christmas party at Smart's this Saturday night, December 5. It is sponsored by the Truckee Firettes and they have invited all of the members of the Donner Lake Volunteer Fire Department and their wives, all of the members of the Tahoe Fire Department and their wives, as well as the volunteers of the Truckee Fire Department. Since all of the departments have worked so well together I think it is a good idea to get together this time of year and get better acquainted at the party.

* * *

Donner Lake Resorts will meet this Sunday night at 7:30 for a dinner and business meeting at Donner Lake Lodge. Many things are scheduled for discussion such as taxes, kokanee fishing, stationery and brochures. All members are urged to bring guests who have places of business at Donner Lake. All business people are invited who are interested in becoming associated with Donner Lake Resorts.

* * *

The busy firemen of Donner Lake were called out twice this week. First call was to put out a fire in a burning car in front of the Ted Franklins' home. There was a serious accident involving two cars and one was on fire until the firemen put it out and helped rescue the people out of the second car. The second fire involved the Greyhound bus accident at the Donner Lake Chevron Station. The volunteer firemen were mentioned on the front pages of the Sacramento Bee, the Santa Rosa Press Democrat and probably a lot more that I do not know about. All of us are proud of our firemen at Donner Lake because of their efficient way of handling emergencies and putting out fires without damaging property of others. In the excitement of such emergencies, a lot of accidents could occur if the firemen were not on the job, so they are to be praised.

* * *

Would you believe it, I get fan letters. I received one from Miss Alice M. Ross of Oakland this week. She owns property in Donner Ski Haven and commented on my article last week about the raise in taxes. She states that "we all read your column with great interest and am happy that Donner Lake has a special place in the paper of its own." Well, I am afraid we are all stuck with the tax raise. About the only thing we can do is try to get something for our money up at this end of Nevada County. Miss Ross was up last weekend and noticed that the turnoff from Highway 40 into her area was quite dark and feels there should be some kind of a light reflector not only for herself, but for others as well, to prevent accidents. Anyone permanenty living in that area might contact the division of highways and get some results. There are a lot of out of town subscribers to the Sierra Sun and I have received many letters. Anyone else wishing to write to me may do so by addressing my mail to P. O. Box 2229, Truckee, California. I will be happy to hear from you and do what I can if you have a problem.

* * *

Many people will be pleased to know that it is not necessary to circulate a petition for mail delivery service. Mr. Arch in Reno is helping all he can, as well as is Mrs. Elizabeth Bavier.

SAFE DRIVING IS UP TO EACH INDIVIDUAL

"The responsibility for safe driving rests squarely on the person doing the driving," California Highway Patrol Commissioner Bradford M. Crittenden declared today.

"As far as I am concerned, there are virtually no 'unavoidable accidents' because in almost every case somebody did something he shouldn't have done or failed to do something he should have done," Crittenden continued.

Noting that traffic deaths in California are running ahead of last year, the CHP commissioner declared that excessive speed and right of way violations are the two leading causes of fatal accidents.

"Each crash caused by one of these violations is chargeable to a person who could have prevented it," he asserted. "Traffic deaths will cease to be a problem only when every motorist determines to apply the principles of self-enforcement to his driving. This means, simply, to drive at all times just as carefully as we do when we are being observed by a traffic officer. This is the responsibility every person who drives a motor vehicle must accept if we hope to curb the slaughter that is taking place on our streets and highways."

TAHOE TRUCKEE SCHOOL NEWS

TAHOE LAKE SCHOOL

KINDERGARTEN: The kindergarten children wish to thank the mothers, Mrs. Lewis and Mrs. Freeland for our Thanksgiving surprise of popping corn in our room Wednesday morning at lunch time. Four poppers were buzzing away as the children anxiously awaited the treat. This was the climax of our booklet we made telling the Thanksgiving story. Each child made a paper bag turkey to be used as a table decoration on Thanksgiving.

FIRST GRADE: The following students received stars this week on their reading tests: John Geyer, Lanny Karcher, Yvonne Baker, Sherry Freeland, Steve Cross, Steve Henrikson, David Thomson, Bonnie Nyberg, Lenell Topol and Bill Moyer.

SECOND GRADE: New class officers for the week are: president, Colleen Howard; secretary, Jackie Marier; paper monitor, Ricky Holly.

The class took a spelling test on Tuesday. Eighteen of the children receivend one hundred per cent. The class is learning how to write their original stories.

SECOND AND THIRD GADES: We were able to finish our bean mosaics this week and we were quite pleased with how they turned out. Those displayed in the front hall are those of Deborah Lawlor, Billy Dutton, Brent Bradley and Ray Street.

Several of our class members will be visiting their grandparents during the Thanksgiving holiday. They are: Yvonne Martin, Linda Walker, Peggy Sue Hoff and Mark Rivard.

THIRD GRADE: Our class decorated the bulletin board for Thanksgiving with a huge cornucopia. In our Spanish class we're studying the names of various kinds of fruit and we have had a lot of fun saying the names of the fruit in our corncucopia.

Elected president this week was Debbie Schindler; vice-president, Eric Poulsen and secretary, Mike Burmer.

Several of the reading groups are working on plays that they plan to present to the rest of the class after Thanksgiving vacation.

FOURTH GRADE: Ernie Marier, Toni Rates, Tommy Hoff, Breezie Cross, Ann Starratt, Michael Keechler, Barbara Diane Poindexter, Susan Wertz, Dianne McBride, Anna Marie Conners, Tom Carnell, Leah Howard, Steven Shaw and Erik Henrikson all received 100 per cent in a difficult long division test.

FIFTH GRADE: Essays of thankfulness were written by the class and were graded on three points: handwriting, spelling and expression of thoughts. Leading essays were written by Mike Keigh, Tom Stephani and John Carnell.

SIXTH GRADE: With report cards all in and parent conferences over the time has come once again to settle down and study. The class has progressed a great deal in the past two weeks, and it is hoped that they can do as well during the following weeks.

SEVENTH GRADE: Our class has completed a six weeks review unit in spelling. One student, Wendy Broomhall, received a perfect paper on a final test of 100 words. Others receiving excellent grades on this test were: Lisa Davis, Randa Fugere, Eddie Hoff, Holly Shaw and Susan Stephani. Students excelling in Spanish are: Wendy Broomhall, Susan Stephani, Randa Fugere, Karen Simpson, Greg Moore, Linda Wolden, Sherry Wall and Eddie Hoff.

Katie Schwieger has returned from her visit to Ireland and registered in our room this week.

SEVENTH GRADE: At the completion of Unit II in our social studies, we had a test. Those who received above average grades, from the highest, were: Chuck Carpenter, Kent Fugazi, Estelle Howell, Carl Brooks, Bob Holley, Leta Laborde, Celeste De Sylva, Sharon NyBlom, Marlea Draney, Pamela Simpson, Amy Arndt and Marie Wainscoat.

We have also started our Atlases. The first four maps have been put into a folder and we shall add to them as the year progresses. The best folders were turned in by Chuck Carpenter, Don Decker, Barbara Hampton, Roger Hayes, Bob Holley, Estelle Howell, Sharon NyBlom and Bob Wells.

EIGHTH GRADE: The eighth grade boys of Tahoe Lake are starting their basketball program. Mr. Shaff, the coach, is helping them develop their skill in accuracy, and in new shots. The boys are going to play Truckee Elementary School on Tuesday, December 1.

Some of the good basketball prospects are: John Crickard, Rickie Krips, Dean Denton, Jerry Schmidt, Bill Raikes, Eddie Gill, Mike Knittle, Rene Robert and Jimmie Jacobsen. Captain for the coming game is Rickie Krips.

The by word today is "be prepared." We are urged by our doctors to have regular periodical physical examinations. Life insurance companies advise us to prepare for the unexpected; our government gives the alert to be prepared for any emergency. The motto for the Boy Scout and also the Marine Corps is "Be Prepared." We are conscious of the material realm; but, in many cases the spiritual has been forgotten or neglected. The pastor's message on this communion Sunday will be entitled: "Ready or Not."

NEW WATER BOARD EXPLAINED AT MEET

TAHOE CITY—Rotarians attending the November 24 dinner meeting at Tahoe Inn heard L. L. (Andy) Anderson, Placer County Supervisor of District 5, describe the general plan for the proposed Placer County Water Agency.

Anderson began with the American River Project of 12 years ago when it was a tri-county project of Placer and El Dorado counties and how Sacramento County had filed on and took the water originating in El Dorado County all because of the failure of the two counties to follow through with their project.

It was the loss forever of the American River water rights to El Dorado County, Anderson said, that prompted Placer County Supervisors to begin action at once and an engineering firm was engaged to make a feasibility study with the result of forming a proposed Placer County Water Agency to be voted on some time in March of 1960. It is to be a revenue bond election and the project if passed by a majority vote will not cost Placer County taxpayers one cent, either for construction or maintenance, Anderson pointed out.

The project, according to the engineering report, calls for dams, reservoirs, conduits, tunnels, penstocks and hydroelectric power. Water and power to be sold wholesale to local entities for resale and P.G. & E. is likely to be a buyer of power, Anderson said. And, he continued, these sales will retire the bonds and pay for maintenance. The rivers and streams, lying mostly in Placer County, include the Middle and North Fork of the American River and the Middle Fork and South Yuba Rivers and tributaries with pumping stations to supply Western Placer County areas too high for gravity flow.

Anderson said the revenue bonds are to be retired in 50 years after which Placer County residents will realize an almost clear profit from the sale of water and hydroelectric power.

Harry Johanson was program chairman. Bill Bechdolt presided.

UNUSUAL VISITOR GIVES LOCAL THRILL

Truckee, which is pretty well used to unusual visitors, was a bit startled Tuesday when Orville Ewing and his four-mule team, two goats and a dog, pulled in at Osburn's Associated Station for a "fill up."

The four burros abreast pulled a rubber-tired wagon overfilled with all types of household and travel necessities.

Ewing, from Pritchett, Colorado, was returning from the Oregon centennial and left Portland early in August. He claims to travel about 100 miles a week. He has traveled from the Pacific to the Atlantic and from the Canadian border to Mexico with his unusual contraption.

MEETING DATE FOR AUXILIARY CHANGED

CRYSTAL BAY—Sophia Levra, president of the Ladies Auxiliary of the VFW Post 7077, announced that the next meeting will be held Wednesday, December 9 at 8 p. m. at Crystal Bay Club, instead of December 10 as previously announced.

The change was made so the group can hold a bingo party at the Veterans Hospital in Reno on December 10.

All members are asked to be present and tickets for the doll to be given away will be turned in at that time. The doll will be awarded December 9 and is now on display at Jo's Beauty Salon in Tahoe Vista.

LADIES OF SHRINE TO ENTERTAIN VISITORS

The women of Ila Neb Court No. 51, Ladies Oriental Shrine of North America will have a "friendship room" in room 225 of the Hotel Senator in Sacramento from 12 noon until the homecoming ceremonial of Ben Ali Temple of the Shrine is concluded.

All ladies of the Shriners are invited to come and enjoy a cup of coffee and home made cookies served by the lady Shriners. Alice Lutz, high priestess, will be in attendance to greet the guests.

MOVIES SPONSORED AT TAHOE BY P.T.A.

TAHOE CITY — "It Happens Every Spring" will be the feature length movie to be shown in the Tahoe City Community Center on Saturday, December 5. The Tahoe Lake School P. T. A. will sponsor a Saturday matinee every Saturday at 2 for the rest of the school year. Admission will be 25 cents for children in the 8th grade and under, 50 cents for adults.

"It Happens Every Spring" is a comedy with a baseball theme.

Homemade candy will be sold at the door by the mothers from the school. Everyone is invited to attend.

P. O. Tahoma, Lake Tahoe

Although it was the day before Thanksgiving and Postmaster Johannes Phillipsen of Tahoe Valley was busy moving two houses from some property he had just sold at the "Y", and concerned with mapping his area for rural delivery service soon, he and Mrs. Phillipsen were gracious hosts to five acting postmasters from Stateline, Bijou, Vade, Camp Richardson and Tahoma last Wednesday. MASTER PLAN FOR TAHOE PROPOSED

LAKE TAHOE—A master plan for the entire Lake Tahoe area, a lake safety council, and boating and recreational use surveys were recommended at the November meeting of Lake Tahoe Area Council's executive committee.

About 500 square miles comprising the watershed basin are covered by the master plan. The council admits it has no authority in this field but is counting on the cooperation of the public agencies to produce a coordinated plan.

The formation of a Lake Tahoe Safety Council, an organization long needed, was urged by the members of the executive committee, along with other groups in the area.

In agreeing to continue its boating and recreation use surveys the council disclosed that preliminary studies with fish and game commissions in both California and Nevada and with recreation authorities in both states indicate that water skiing, boat racing, and swimming. This proposal is marked for further study by the council.

The Lake Tahoe Area Council is a private, non-profit organization made up of business firms, property owners, individuals, and government agencies which have interests in the Lake Tahoe basin. The council is dedicated to the preservation of the natural beauties and resources of the lake in the face of its expansion as a residential and recreation center.

A federal charter was given to the Boy Scouts of America in 1916 by Congress.

AMERICA'S HIDDEN ILLNESS

by Dennis McGenty, Executive Director, National Committee on Alcoholism, Inc.

With four and a half million alcoholics, the United States has the largest alcoholism rate in the world. Only twelve per cent of these people, however, are found in skid row. 88 per cent of our alcoholics are hidden sufferers living next door to you, in the apartment above you, the house down the street. One out of every five and a half of them is a woman. Is it any wonder then this is considered a major national health problem!

ALCOHOLISM is a triple disease: physical, mental and spiritual. The tragedy of alcoholism has baffled our thinking for over two thousand years because we have never treated the alcoholic patient as a whole. We have treated only one-third of his illness at a time, and so, still two-thirds unhealed, he has relapsed again and again.

Defeated and despaired of, the alcoholic victim himself, with his fellow outcasts, only two decades ago distilled from his own bitter experience a remedy which finally treats the patient as a whole. This is the way of life prescribed by Alcoholics Anonymous in its Twelve Suggested Steps to Recovery.

TO BEGIN, the sobered alcoholic must avoid, not the second or tenth, but the very first drink — one day at a time if need be. For, sooner or later, it is the first drink that sets into gear the inevitable physiological craving for more and more. This twenty-four hour resistance protects him against the physical third of his illness.

Next he must learn to discipline his emotions and intellect. This implies a whole re-education of thinking and emotional reactions, in order to treat the second third of his illness — the psychological side.

TO DO these things, he must accept himself in humility as he is through what AA calls a "personal inventory" of his adequacies and inadequacies, and he must walk with his hand in the hand of God. Thus he treats the last third of his illness.

If, however, 200,000 alcoholics in the world have recovered, why in America alone are four and a half million of them still hidden away in tragedy-haunted homes?

IT IS because the social stigma attached to the alcoholic has blinded most people to the full three-fold nature of the disease. In fact, the saddest offenders are most often the family, even those who want desperately to do the right thing. Although the alcoholic's core illness is a deep sense of inadequacy, insecurity, and self-depreciation, the family's attitudes toward him or her are often so wrong, so defeating, that they perpetuate the very need-to-escape which drives the alcoholic to drink.

Alcoholics Anonymous helps those alcoholics who acknowledge their problem and want to do something about it. AA Family Groups throughout the world help the members of families who recognize and accept the problem by helping them to help themselves.

"GET ROUGH POLICY" BY PATROL PAYS OFF

SACRAMENTO — CNS) — Director of Motor Vehicles Robert I. McCarthy, undaunted by widespread criticism of his "get tough" policy of driver's license suspension, said he nearly is convinced driving privileges should be taken away for even the most trivial traffic violations.

McCarthy told a Rotary Club audience in San Diego he has suspended the licenses of 40,379 drivers for negligent operation and has ordered another 4,0024 suspensions or revocations on first offense drunk driving convictions. Gov. Edmund G. Brown, who has supported McCarthy's policy, credited the program with saving 350 lives between April 9 and Oct. 28.

But McCarthy cited the traffic experience of Oct. 17 and 18, a weekend during which 41 persons died in automobile accidents.

"Why?" asked McCarthy. "Why this wanton waste of human life? Where had we failed? What had we done wrong? What had we neglected to do?"

McCarthy reviewed the driving records of drivers in 20 of the accidents in which 30 persons died. Most had previous records of minor driving violations—driving without rearview mirror or proper windshield; passing a car stopped for pedestrians; driving wrong way on one-way street; running stop sign; illegal turn, and failure to yield right-of-way. A number of the drivers had no previous driving citations.

McCarthy said a study of these records convinced him "we have been too casual about the so-called minor traffic violations."

"More and more I am beginning to wonder if there actually is such a thing as a minor traffic violation," McCarthy said. "I have almost come to the conclusion that we ought to take away the driving privilege of every person who commits even a single offense, no matter how seemingly trivial, while operating a motor vehicle.

"For little traffic crimes kill more people than do the sensational big ones," he said.

LOCAL PLACES ARE LISTED BY D. HINES

ITHACA, N. Y. — Six Truckee area eating and lodging establishments will receive national recognition in the silver anniversary editions of the Duncan Hines Travel Books "Adventures in Good Eating" and "Lodging for a Night" coming out this month, according to an announcement from Roy H. Park, editor-in-chief of the Duncan Hines Institute here, publisher of the travel books.

The Truckee area establishments are among 9,800 eating and lodging places in North America "Recommended by Duncan Hines." The establishments are: The Gateway Motel, Truckee; Mayhew's Ward Creek Cottages, Lake Tahoe; Pomin's Tahoe Park Cottages, D'Atri's, DeLong's, Tahoe City; Rainbow Tavern Hotel, Soda Springs.

In addition, the third Duncan Hines Travel Book, "Vacation Guide," lists these Tahoe City establishments: New Chambers Lodge and Cottages, Squaw Valley Lodge, Tahoe Inn, Tahoe Tavern.

"These 1960 editions mark our twenty-fifth anniversary of service to the American traveling public," Park stated. "In 1935, the first 'Adventures in Good Eating' launched a new and unique publishing venture, one that has pioneered in upgrading the standards of service offered the American traveler."

ber for the VIII Games—OLympic 8-1960.

Other speakers included State Senator Ronald Cameron of Auburn; Assemblyman Paul Lunardi of Roseville; and H. R. Thoreau, managing director of the Games.

Dean briefly outlined the highlights of the phone company's role in preparing to take the Games to the outside world by cable and microwave.

The $1,500,000 communications network includes 100,000 feet of cable, most of which is underground for protection against the High Sierra winters; 1,200 telephones; accommodations for more than 500 newsmen; radio broadcast facilities to serve almost 40 foreign stations; two telephone centers, one a trailer providing for 10 public phones, and the other housing six in the Athletes' Center; almost 100 public phones; and a sprawling fire reporting network.

In addition, the phone company implemented a special trailer to provide for residential service, thus allowing the bulk of the Squaw Valley cable to be used for the Games.

Pacific Telephone also constructed a building to house special equipment such as press teletype, telephoto, television, radiod, long distance relay and other private line equipment.

This building will house gear by which TV beams can be bounced from the floor of the valley to the top of one of the ski runs, KT-22, for relay to Mt. Rose, near Reno, and eventual incorporation into the CBS network.

Dean stressed that a large amount of the work for the Olympic is correlated to meet the demands of the general Lake Tahoe population boom.

Mount Borah in the Lost River Range of Idaho, 12,665 feet, is the highest in the state.

SHARON TREMAYNE WEDS HAROLD BROWN

Saint Luke's Lutheran Church in Reno was the setting for the November 21 wedding of Miss Sharon Ann Tremayne, daughter of Mr. and Mrs. Dave Tremayne of Donner Lake andd Harold James Brown, son of Mr. and Mrs. Gale Brown of Lake Tahoe.

The Reverend Armand E. Mueller officiated at the afternoon ceremony with just family members and close friends present.

Decor on the candlelighted altar included baskets of white chrysanthemums and Albert Schlichting presided at the organ while Dr. Robert Affeldt was in charge of seating the guests. Philip Raush of Truckee was best man.

Given in marriage by her father, the bride wore a ballerina length white nylon lace gown over bridal satin cut on classic lines. Her fingertip veil of illusion with matching lace had a small crown with rhinestone and she carried a small Bible covered with white rosebuds, with a dainty white lace handkerchief made especially for the wedding by her grandmother Mrs. Gertrude Forward.

Diane Speeter of Kings Beach was maid of honor and was gowned in a frock of pink organdy with a headdress of white net with matching white shoes. She carried a bouquet of pink carnations.

Mrs Tremayne chose for her daughter's wedding a beautiful champagne color for her sheath dress, green accessories, and a corsage of baby brown orchids. Mrs. Brown, mother of the groom chose a white ensemble with black accessories. She was wearing a corsage of red roses. Miss Sondra Tremayne, sister of the bride in charge of the guest book, chose a two piece ensemble of brown and white check and was wearing a lavender orchid for her corsage.

Trader Dick's in Sparks was the locale of the wedding reception where the bride and groom cut a beautiful wedding cake decorated with a bride and groom and wedding bells. Fruit punch was served to the young folks and a special scorpion punch to the older ones. Ice cream and coffee was served with the wedding cake by Jan Ambler and Shirnell Hansen.

Before the bride and groom left for a short honeymoon, destination unknown, the bride tossed her bouquet and it was caught by Jan Ambler. Philip Raush caught the traditional blue garter thrown by the groom.

The new Mrs. Brown is a senior at Tahoe Truckee High School where she will continue until she graduates in June. Mr. Brown is a graduate of Tahoe Truckee High School and is employed at Z Market at Gateway. The popular young couple will make their home in Truckee for awhile.

IN 1863

When John McKinney, who had tramped the shores of Tahoe for over a quarter of a century, was ready to settle down he chose the West Shore of Lake Tahoe where the creek which now bears his name feeds into the Lake. There he built and operated Hunter's Lodge on the location he considered the choicest on the Lake.

In 1920 Dave Chambers, another true pioneer of the Lake, purchased the Lodge and surrounding land, renaming the resort Chamber's Lodge.

Through a combination of luck and planning this still remains the choicest part of the Lake, unspoiled by commercialism. And though you cannot practice some of the freedoms enjoyed by McKinney (we have inside plumbing, anyway) you can swim on the same sandy beach which has been improved, cruise on the same smooth waters of the lake (but with private pier privileges McKinney never dreamed of) fish the same waters and hunt the same private forests (as members of Chamberland Beach and Mountain Club).

You can cash in on Your Luck and Chamberlands planning by buying a home or lot in Chamberlands now, the finest winter and summer development on Lake Tahoe. Terms, of course. For Information contact Max Hoff, Realtor, office in Homewood. Call LAmbert 5-7434 or JUniper 3-3002.

Tarzan

by EDGAR RICE BURROUGHS

TARZAN TELLS THE CAPTIVE TINI-TINI WOMEN: "BE NOT AFRAID! WE WILL NOT LET THE RIVER DROWN YOU!"

THE TORRENT OF THE RISING RIVER FLOODS AROUND THE CAPTIVE TINI-TINI WOMEN--AS TARZAN AND THE GREAT APES WORK FEVERISHLY TO RESCUE THEM.

THESE ARE MY GREAT APE FRIENDS. DO NOT FEAR THEM! THEY HELP SAVE YOU!

THE SHY WOMEN HURRY TO REPLACE THEIR GOLD OUTER GARMENTS THAT HAD BEEN TAKEN FROM THEM BY THE GREEDY ROGUE MEN.

THESE ARE THE LAST OF THEM, HUMO--AND JUST IN TIME. THIS WATER IS GOING TO BE OVER THE BANK IN A SHORT WHILE...

BILL ELLIOTT JOHN CELARDO

LET'S GO, EVERYONE--BACK TO THE TINI-TINI VILLAGE!

TARZAN! SAVE ME, TOO, TARZAN!
